Prizes to Be Awarded. This morning prizes will be awarded those having the best kitchen, pantry, agricultural, horticultural and Capital \$100,000.00 poultry exhibits on the grounds.

There is much friendly rivalry be ween the agricultural and horticultu ral exhibitors from the Roy district of Weber county and the Bear river valley district. A protest was entered against Mr. Dix, one of the judges, by the Bear river valley exhibitors, be cause of his residence in Roy. This will necessitate the managers of the fair association choosing another judge in the place of Mr. Dix. The prize of \$150 to be distributed—\$75 to the winner, \$50 to the exhibitor holding second place and \$25 for third placehas caused much interest to be shown

GROUNDS

CITY COUNCIL DENIES APPLICA-TION FOR LIQUOR LICENSE.

Deposit Made by Molver May Be For-feited as He Conducted Bar Without Authority.

The thirsty folks who have been in the habit of gathering around the bar at the fair grounds since the Four-State fair opened its gates to the public Monday morning and there discuss-ing the relative merits of the thoroughbreds in each racing event will be dis-appointed this morning when they reach the fair grounds to find that the improvised bar is no more. The city council at an adjourned session last night refused to issue to H. H. McIver a license to conduct a retail liquor bus-iness at the grounds. The application for a license, with the fee of \$250 was presented to the council last Monday night a week ago. The application was referred to the license committee. Last Monday being Labor day no session of the council was held, but at the meeting last night a report was read from the license committee rec-ommending that the license be

Application Is Denied.

A vote was called for and Council-men Austin, Dickson, Peery and Wilson voted in favor of adopting the committee report. President Brown-ing, Humphris and Powers voted in the negative. The failure to obtain a majority vote of the councilmen elected resulted in the application for the li-

cense being denied. Mr. McIver opened the saloon at the fair grounds Monday morning with the expectation that there would be no objection to the issuance of the license by the city council. Councilmen Dana and Flygare, both members of the license committee, were not present at the meeting last night, Councilman Thomas was also absent and a full vote on the report of the committee could not be obtained.

vas made might probably be forfeited the city, as Mr. McIver has con-ucted his saloon without authority

Against Freezing Weather. Councilman Austin called the atten-tion of the council to the condition of Park avenue, Patterson Ave. between Wall avenue and Pacific avenue, and Thirty-first street between Euclid av-enue and Pacific avenue, where, it is said, the water pipes of the city are only a foot below the surface of the round. The approaching cold weather ground. The approaching cold weather will cause considerable damage to these pipes and Mr. Austin asked that immediate steps be taken to remedy this condition. The matter was referred to the street committee with power to act. Councilman Wilson reported that Wall avenue between the BIG CROWD ENJOYS THIS UNIQUE Interest Manifested in Numerous Exported that Wall avenue between the Shupe-Williams candy factory and Twenty-seventh street is badly in need of repair. The street committee was given power to act in this matter also. Those exhibitors who were delayed Routine Affairs.

Estimates for sidewalk improve-ments made by William Doyle, the Wheelwright Construction company, J. C.Gale and other contractors were ap-proved and allowed upon the recomendation of City Engineer Parker.

mendation of City Engineer Parker.

Payrolls for city employes amounting to \$3,133.03, and the employes of the waterworks department for \$356.30, were allowed and ordered paid. The regular report of the city treasurer showed a fund of \$51,283.82 now on head. This includes the metallic part of the city treasurer showed a fund of \$51,283.82 now on the city treasurer. The second day of the fair was well attended but the enormous crowd which surged over the grounds on Labor day was lacking yesterday. Notwithstanding this, the attendance was hand. This includes the waterworks and general fund.

The poll tax cellections for the past month, according to the report of Poll Tax Collector A. G. Harris, amounted to \$715. Mr. Harris was allowed his regular commission of \$178.

A petition was received from Paul

Zeigenhart asking the city to lease him a lot 60x20 feet on the south side of the Ogden river gridge, on Washington avenue. Mr. Ziegenhart says he wants the property for warehouse and storage purposes. The petition was referred to the building and grounds committee.

On motion of Councilman Peery the members of the council decided to accompany the city engineer on a trip of inspection of the new city reservoir now nearing completion. The city of ficials will leave next Thursday after noon at 4 o'clock.

OLD NEVADA CAMP SHOWS MUCH ACTIVITY

Tecoma, Near Utah, Line, Boasts of tor Maringaness was palarayed to Net al new! district more alisafe bas. trict which has received a new lease on life, is the manner in which the Tecoma, Nev., section is described. Tecoma, Elko county, Nev., is just over the Utah-Nevada state line, about 113 miles west of Ogden, and it has in the past been a section of considerable activity, while at present it shows every indication of assuming again its old-time form. T. W. Walsh, a wellknown and practical mining man who has recently returned from that secgressing in every way. Mr. Walsh is manager of the Little Butte and Iron Mass companies, in which many local people are interested, and at his own properties, as well as at those sur-rounding him, he states that work is going forward with a vim. The history of this district goes back to 1860, with the discovery of the old Tecoma mine, which produced largely in its day. Of late years, however, the only extensive operations that have been carried on there have been by the Salt Lake Copper company, which Mr. Walsh states is at the pres ent time turning out on an average of 250 tons of copper ore per day Recently, also, Salt Lake parties have commenced work again on the Tecoma, and are at present sinking on the ground a 500-foot double comon the ground a 500-foot double compartment shaft, the intention being to drift for the sulphide zones at depth.

Mr. Walsh states that for the Little Butte company's claims there have recently been taken out about sixty tons of ore averaging in value 56 ounces, silver, 35 per cent lead and \$10 in gold. The discovery of the gold values came as a surprise to those operating. came as a surprise to those operating in the district and opens up fields of investigation and possibility heretounthought of

Mr. Walsh's companies are at pres ent taking into the camp necessary for the further development of their property. One of the rather wonderful formations of the section, says, Mr. Walsh, is a mass of iron ore which has been traced on the surface for a distance of 4,500 feet and which is from twelve to thirty feet wide along its entire length. This material is suitable for fluxing, but the intention of the company at present is to get under this formation, for in the past it has been found to be a capping for deposits of silver-lead ore.

Heating Water by Gas

THE RESIDENCE OF THE PARTY OF T

So many people want to know how we heat water when using Gas for cooking. We have Instantaneous Water Heaters used in the bathroom, giving three gallons per minute at a cost of 11-4c for ten gallons. We can heat enough water for a bath in fifteen minutes, costing 5c, with our Lyon Coil Heaters, which are connected to the
kitchen boiler. The heated water is stored in the top of the boiler
and the first water drawn will be hot water.

If you are to build a nice modern home and dote on modern conveniences, you can have an automatic Rund Heater installed; this heater furnishes hot water to all the faucets in the house, and heats it only when wanted. The efficiency of this heater is as high as any other modern machine for heating water with Gas.
